PROFESSIONAL SUMMARY

Software engineering graduate with honors from the University of Jeddah, specializing in web and mobile app development. experience in creating user interfaces for applications and websites.

EDUCATION

UX/UI Bootcamp	Feb 2024 - May 2024
Ironhack x Saudi Digital Academy	
Bachelor's degree in Software Engineering	2019 - Mar 2024
University of Jeddah GPA: 4.59 of 5 Second honor	

INTERNSHIP

Flutter Development Bootcamp	Jul 2024 - Present
Tuwaiq Academy	
The Flutter Bootcamp equips participants with the skills to develop mobile apps using Dart and Flutter. It covers key topics like building modern, efficient apps and managing state, databases, and platform integration.	
Software Engineer	July 2023 - Aug 2023
PureCode	
<ul style="list-style-type: none">Master web and app technologies and frameworks including Frontend DevelopmentUtilize the Flutter framework for app development, ensuring cross platform compatibility and efficient UI rendering.Implement best practices and standards in UI/UX design to enhance user satisfaction and interaction.	

COMPETITIONS

Holy Qur'an technology competition	2023
Won second place in the Holy Qur'an technology competition at the University of Jeddah. Helped design a mobile app for people with disabilities, especially those with hearing impairments, to read and understand the Qur'an. Added features to track users' progress and used AI to make the app more interactive and engaging	

VOLUNTEER

Saudi Developers Community	2024 - Present
<ul style="list-style-type: none">Member of the Design Committee, Saudi Developers Community. Contributed to enhancing the community's technical knowledge by writing articles and organizing technical events.	
Students Council	2020-2021
<ul style="list-style-type: none">Served in leadership roles within the student council at the College of Computer Science and Engineering, University of Jeddah, acting as a liaison to foster communication and collaboration between students and faculty.	

PROJECTS

Onze Coffee shop application	2023
Onze Coffee is a user-friendly application designed to streamline the coffee buying process. It allows customers to order and track their coffee with ease, improving both customer experience and the efficiency of the coffee shop.	
Technologies Used: Flutter - Supabase - OneSignal - Figma - GitHub	
Arak (Senior Project)	2023
A mobile application designed to serve as a link between dental students and volunteer patients. The project aims to improve the quality and effectiveness of dental education in the Kingdom of Saudi Arabia by addressing the challenges faced by the students and patients through	
Technologies Used: Android Studio - Firebase - Figma - GitHub	

CERTIFICATES

UX/UI Bootcamp Ironhack x Saudi Digital Academy	2024
Certified Internet Web Professional CIW Advisory Council	June - 2024
User interface design and user experience UX/UI TUWAIQ ACADEMY	2023
Automated Guided Vehicles (AGVs) For Logistics Services Arduino	2022
